Dubai: The Ministry of Health and the Residency and Foreigners Affairs Department in Dubai launched yesterday a new service in which the medical health certificate for residency purpose can be electronically sent from the clinic to the residency department.

The new project links Dubai Preventive Medicine Department and the residency department electronically.

According to Dr Hanif Hassan, Minister of Health this move is a first step in the ministry's plan for future development in different sectors and the achievement of outstanding cooperation with local and federal departments.

## **New service**

The new service was launched yesterday at Al Baraha hospital, by Humaid Al Qutami, Minister of health and Major General Mohammad Ahmad Al Merri, Director General of the Residency and Foreigners Affairs Department in Dubai

This is the second phase of the "Takamul project" with the Ministry of Health and Dubai Medical Zone.
